I absolutely love

Graphic design, typography, pixel-shifting,
digital photography, entrepreneurship,
sports, activity tracking, weird music,
travels, the Nordics, snow in summer

See portfolio: www.behance.net/angieskazka

I'm naturally an innovator and creator. Sensitive to aesthetics and having a good visual taste. I love organizing the complexity.
I believe that user experience design together with practices of data graphics will take the world of communication to the next level

One of the projects

C3 The Full Picture: interactive web app to visualize Google Calendar data. Made with D3.js. Available at visuel.tv/c3
